

MEET JOTANIYA

AI/ML Developer | Full Stack Developer | Flutter App Developer

+91 8141746072 Morbi, Gujarat meetjotaniya07@gmail.com

Meet Jotaniya git Meet Jotaniya

CAREER OBJECTIVE

To contribute as a Flutter App Developer by designing and developing scalable, high-performance applications, while continuously learning and applying modern technologies to solve real-world problems.

EDUCATION

Darshan University
B.Tech in Computer Science
& Engineering
CGPA: 8.71 | (Expected 2027)

12th (GSEB) – Navyug
Vidyalaya, Morbi
Percentage: 77% | 2023

10th (GSEB) – Navyug
Vidyalaya, Morbi
Percentage: 89% | 2021

LANGUAGES

English : Fluent
Gujarati : Native Proficiency
Hindi : Native Proficiency

ACHIEVEMENTS

- CodeArena-1.0 Hackathon 2025 – Darshan University (July, 2025)
- Completed multiple personal and academic projects in Flutter, ML-DL & MERN Stack.
- Worked as a Flutter Teaching Assistant, gaining hands-on experience in mobile app development and student mentorship.

PROJECTS

HD Wallpaper App | Flutter (September, 2025)

- Developed a high-quality wallpaper browsing and downloading app with search, category filtering, favorites, and HD preview.
- Implemented API-based image retrieval with real-time search and smooth UI using GetX for state management.
- Added features for sharing, setting images as wallpaper, and saving offline favorites

PDF to MCQ Generator | Deep Learning (2026)

- Built a pipeline that reads PDF documents and generates multiple-choice questions automatically.
- Used Phi-3 model locally via Ollama for question generation without any external API dependency.
- Applied NLP techniques for context extraction and distractor generation.

Student Project Management System | NEXT.js(March, 2026)

- Built a full-stack student project management app using Next.js for both UI and API routes.
- Used Prisma ORM with Neon (serverless PostgreSQL) for data modeling and queries.
- Implemented project tracking, student-mentor assignment workflows, and role-based access control.

SKILLS

Frontend: HTML, CSS, Flutter, React, Next.js
Backend: Nest.js, Node.js, Express.js
Databases: SQL Server, MongoDB, PostgreSQL, Prisma ORM
ML / DL: Python, NLP
Languages: Java, Python, JavaScript
Soft Skills: Problem Solving, Project Management
